

Audicus

Instruction Manual

Bluetooth Remote

Media Playback

- a. You can playback media via your Bluetooth remote and device. You must pair your device to the remote first before playing media.
- b. Or you can playback media via the Bluetooth Dock connected to the remote. You must plug appropriate cables and pair the Dock to the remote before playback.

Changing Between Programs

While using the Bluetooth functionality, you can always return to the Smart Program by pressing the Master Button.

If you are connected to several Bluetooth connections, e.g. Bluetooth dock and phone, you can cycle between both programs and the acoustic hearing aid programs by pressing the Master Button.

The Bluetooth connections prioritize phone calls over the other connections. The rank is based on what was paired first.
